

Klamath Chapter News
April 2008

Klamath Chapter wishes everyone a wonderful Golden conference!

It has been a terrible winter here with snow, and more snow, which has resulted in cancellations with our speakers. Our obstacles have been many, but we will continue to strive and encourage our CMA's to continue their education, and participate whenever possible. Our communications in the previous months have been by phone or fax, and kind of reminds you of years gone by. But spring is around the corner and a little sunshine now and then lets us know that things are on the move again.

Our future topics for education are: CPR, Botox, and Acupuncture.

Sincerely,

Paula Pool, CMA(AAMA)
President KCMA
